**EXHAUST  
(H4SO U5)**

#### 1. General

- The exhaust system consists of front exhaust pipes, three-way catalytic converters, a rear exhaust pipe and a muffler.
- The front exhaust pipe assembly consists of a front exhaust pipe (RH), which incorporates the front catalytic converter (RH), and a front exhaust pipe (LH), which incorporates the front catalytic converter (LH) and the rear catalytic converter.
- The exhaust system features an improved sound suppression design and has a chamber in addition to the muffler. Also, a twin-muffler system is used to reduce gas flow resistance.

## 2. Construction

- |                                    |                              |
|------------------------------------|------------------------------|
| (1) Front oxygen (A/F) sensor (RH) | (8) Front oxygen sensor (LH) |
| (2) Front oxygen (A/F) sensor (LH) | (9) Rear catalytic converter |
| (3) Front exhaust pipe (RH)        | (10) Rear oxygen sensor      |
| (4) Front exhaust pipe (LH)        | (11) Chamber                 |
| (5) Front catalytic converter (RH) | (12) Rear exhaust pipe       |
| (6) Front catalytic converter (LH) | (13) Muffler                 |
| (7) Front oxygen sensor (RH)       |                              |
